

Meet the Collections

Your chance to see some of the unique, beautiful, unusual and sometimes commonplace objects, artworks, archives, textiles and archaeological material cared for by Jersey Heritage.

This is an opportunity to see more of our collection that is not currently on display at our visitor sites.

Collections staff will be available at these events to talk to you about different objects, chosen from the hundreds of thousands of items that they look after.

Tours of our Museum Collections Store will also run alongside these events, so you can see as much of the collection as possible. Tours provide a general overview of all collections held in the store but will also highlight other objects in keeping with the monthly theme.

Visit www.jerseyheritage.org for more information
